

THE CURIOUS BOTANIST

A journey of discovery for the senses.

Join The Curious Botanist on a sensorial journey around the world in search of nature's most effective botanical extracts. Inspired by Giorgio Gallesio's discovery in Sicily in 1811, this natural skincare line reveals the revitalizing power of blood orange. Rich in antioxidants and vitamin C, it is known for its firming effect on the skin, while its uplifting fragrance is proven to enhance mood.

THE CURIOUS BOTANIST

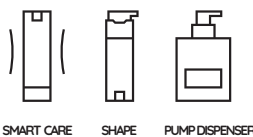

Awaken your senses with the invigorating scent of sun-ripened blood oranges, harmoniously rounded off with warm notes of sandalwood and tonka bean. Uniquely composed with active fragrance ingredients, this inspiring scent is scientifically proven to enhance mood thanks to Actimood® technology.

YOUR ADVANTAGES

- ~ With revitalizing organic Sicilian blood orange essential oil, rich in antioxidants and vitamin C, known to promote firmer-looking skin
- ~ Inspiring fragrance experience with proven mood-lifting effects; also available as a room spray and a “good mood” spray for skin, hair, and fabrics
- ~ Additional guest well-being program including greeting cards, tea, a cocktail recipe, and interior décor elements
