TOUCH

## Wellbeing inspired by water

Inspired by the life-giving power of water, Hydro Touch provides freshness and vitality. Delicate yet energising, this collection offers sensory relaxation for body and mind. Effective formulas with moisturising active ingredients such as marine minerals and seaweed extracts support the skin's functions and emphasise the power of the ocean.

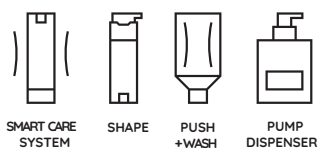

Awaken your senses with a combination of lemon, sage and grapefruit essences, complemented by notes of honey and a touch of cedarwood. An invigorating fragrance reminiscent of a refreshing swim in the sea.
