

my forest  
FRIENDS

## Conceived with love, developed with care

With our child-friendly guest collection, young guests are invited to discover a fairytale bathing experience. Gentle, safe, and full of fun, my forest FRIENDS tells a story inspired by little forest animals playing by the river on a summer day. This dermatologically tested line encourages a love for nature as well as the joy of bath time.

All body care products from my forest FRIENDS feature our child-friendly fragrance: sweet and powdery, with a fresh floral heart note and a soothing base note.
