

Naturals REMEDIES

Botanical traditions rediscovered

Inspired by the world of the apothecary, the Naturals Remedies collection reimagines botanical traditions in a modern way. High-quality formulas, developed through extensive research, feature purifying organic sage, antioxidant-rich organic blackcurrant, and nourishing nettle to gently cleanse, care for, and hydrate skin and hair.

Naturals REMEDIES

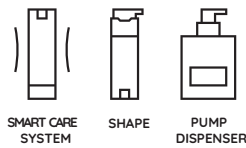

The aromatic fragrance of the collection is a modern interpretation of traditional scent notes. Sparkling bergamot and lemon lead the way, followed by green nuances of fig, jasmine, and leaves, rounded off with cedarwood.
